COMMENT

Meeting Attended:

I was not able to attend a meeting

Important Issues:

Radio or Television Interference, Health and Safety, Visual / Aesthetic Resources, Proximity to Residences

Property Uses:

Residential

Comment:

I wanted to express my concern with the proposed project to run through LaVeta Acres. Section 4. Lot 15,16, & 18. We have just recently found out about the project from a neighbor so sorry for the delayed response. This is a family owned residence and we absolutely love this property. The high voltage would prevent our family from doing the normal outdoor activities the kids love when up in the mountains. Throughout the year we have several families visit and it is truly a beautiful place. Please do not hinder the property by running transmission lines through it. Several of us are planning to retire here and this would be a tragedy for our property. I appreciate your time and thanks for your concern.

I-264-001: Electrical Characteristics (In Review)

Your email/letter/comment form has been received and your comment noted. Electrical characteristics of the proposed project and mitigation measures will be addressed in the Environmental Impact Statement. The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.
